2020 A YEAR IN THE MAKING

MID-YEAR REPORT: JAN-JUNE

Every day at Texas Humane Heroes is a new adventure. In the last six months, our team has learned to adapt quickly to changing environments while continuing to provide the highest level of care and compassion to dogs and cats in need. Please take a moment to celebrate the impact of your support. Because of your dedication to Texas Humane Heroes, more animals were rescued, healed, and placed in forever homes. You make it possible to continue this important work.

Jeff Struchtemeyer
President & CEO

AN UNEXPECTED START

Like the rest of the country, no one could have known how the beginning of 2020 would unfold. Thankfully Texas Humane Heroes resides on 22-acres and continues to rescue and care for animals in need throughout this challenging time. We have ventured across the state to save more high medical needs animals than ever before. We've increased services to pet-owners in our community who are pressed to find affordable spay/neuter services and low-cost vaccinations. During this isolating time, more families are finding joy in adopting their companion animals from Texas Humane Heroes.

Mid-Year Numbers

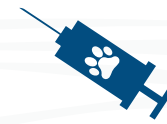

2,210
Rescues

2,017
Adoptions

3,213
Spay & Neuters

13,781
Vaccinations

Rescue Missions

241
Foster Homes

\$27,765
Spent on High-Needs
Medical Operations

ANSWERING THE CALL

As donor investment grows, we are able to answer the call to save more animals classified as “high-needs” medical cases. Many of these animals are first to be euthanized in crowded shelters and often have little chance of finding a home without medical care. Texas Humane Heroes rescued 11 emergency medical-needs animals in the first half of 2020. After treatment and foster care, these animals become resilient and are truly grateful for a second chance at life.

Lady

Texas Humane Heroes rescued Lady from a high-kill shelter where she faced a life-threatening spinal injury. Thanks to the support of donors, she was able to have the spinal surgery she needed to survive and thrive. After months of recovery and rehabilitation, Lady is now flourishing in her home.

Markie

Markie's eyelashes were permanently scraping his eye, causing extreme discomfort and visibility problems. With the help of a medical operation,

Markie has recovered and is living a more comfortable life. He is gaining sight and opening up to people in new ways.

Happy Feet

When Happy Feet arrived at Texas Humane Heroes, it was clear he had a difficult life. The vet team rushed to remove a choke-chain embedded into his neck. After a brief recovery, Happy Feet quickly lived up to his namesake, greeting his adopters with a grin and a dance.

Trixie

Trixie arrived with a severe leg injury and the vet recommended full amputation for a chance at a longer life. She recovered in a foster home receiving daily care and rehabilitation. She found her forever home and enjoys every day she can run and play with her new family.
