

A Message from our President

Every year, looking back at what we achieved, I continue to be impressed by the impact that we've made together. While finding forever homes for our dogs and cats will always be a priority, our medical team will continue to save animals through vaccinations, spay and neutering, and other life-threatening illnesses. This has not only improved the lives of the pets we bring in from shelters across Texas, but pets throughout our community as well.

With our new building on the horizon, our ability to perform these services like these will continue to grow. We're all very excited to be move into our next phase of providing animal welfare. I thank you for your continued support of Texas Humane Heroes. Please join me as we look ahead into another exciting and challenging year of making life better for animals and the people that love them.

Jeff Struchtemeyer
President & CEO

Texas Humane Heroes is a No Kill, private, non-profit, 501(c)(3) organization with dog and cat adoption centers in Leander (Greater Austin Metropolitan area) and Killeen, Texas. Established in 1979, Texas Humane Heroes enhances the lives of pets and people through adoption, availability of our low-cost spay/neuter and vaccinations as well as family-friendly community events.
We are 100% funded by donations, grants, and modest fees for services. Texas Humane Heroes does not receive any local, state, or federal government funding.

Another Life-Saving Year

Champion's Long Road Home

Champion had a rough start in life, left unattended outside by people who weren't able to care for him. Despite all this, he came to TXHH and stole everyone's heart. It took some time, but he was adopted by the O'Donnell family. As he's prone to do, he stole their hearts as well and absolutely loves life in his forever home.

Bruce Wayne: Out of His Shell

After a lengthy stay at TXHH, Bruce Wayne was adopted by the Shrout family back in September. Since then, he's not only shed his anxiety weight, but has completely come out of his shell, too. He gets along with both their dogs, and is particularly protective of his little sister. As the Shrout family happily proclaimed, "he completes our pup family!"

Our New Building

After our groundbreaking ceremony in October, construction on our new building is estimated to be completed by November, 2023!!

The new building will have space for:

- 136 dogs
- 144 cats
- 4,000 sq ft clinic

Resulting in a projected 15% adoption increase

We're still raising funds for the final \$1 million -
contact us for options on how to help!

A Growing Partnership

Our partnership with PetSmart Charities continued to thrive in 2022, resulting in \$102,000 in grant money and 630 animals being adopted at five different PetSmart locations.

With the grant money we've received through PetSmart Charities, and the projects we're working on together in 2023, our partnership will continue to result in rescue animals finding their forever homes.

Animals in shelters can harbor communicable illnesses for up to 14 days without symptoms. Our **14-Day Promise** program gives adopters peace of mind. If any issues present themselves within the first two weeks after adopting, our on-site medical team will treat the issue for no cost.
